

## Air to Water Heat Pumps

Stanley Heat pumps are suitable for both new build homes and home heating retrofits. They offer an efficient alternative to standard boilers and the Stanley Smart System allows remote access to the heating system via website, remote or app to allow maximum control.

### MONOBLOCK HEAT PUMP FEATURES

- Monoblock heat pump with dedicated internal unit
- Internal unit 250 litre with integrated buffer tank 50 litre and 200 litre Dhw storage
- Flow meter to monitor flow rate from the heat pump to internal unit
- Magnetic filter and Y strainer fitted to protect heat pump from contamination
- Stainless steel cylinder
- Maximum pressure 6 bar
- Factory insulated 40mm high density insulation
- Stainless steel domestic hot water coil of surface area 3.3m<sup>2</sup>
- Temperature and pressure relief , 7 bar – 90°C
- Integrated Central heating pump & wiring centre
- Crank case heater to protect external unit
- Weather compensation function

**ENGINEERED IN EUROPE**  
DESIGNED FOR IRELAND

## Technical Data

Output	Up to 6kW
Model	WSLHPSOECO
Rated Frequency (Hz)	50
Rated Power (W)	2900
Rated Current (A)	13.0
Refrigerant	R32
Scop @ 35 Deg C	4.55
Scop @ 55 Deg C	3.3

### Features - Internal Unit

- 200 Litre DHW Cylinder
- 50 Litre Buffer Tank
- Circulation Pump, 2kW Heater
- Built In Sim Card, Data Transfer Unit
- Compact External Housing
- COP: Up to 6.1
- EN16147 Certification
- Energy Class: A++

### Features - External Unit

- Air to Water Monobloc System
- 2kW – 6kW Inverter

## Why Choose a Stanley Heat Pump?

With a proven record in heating Irish homes, we are looking to the future with our Stanley Air to Water heat pumps.

#### Design Services

- Heat Loss calculations
- Underfloor Heating Design\*
- On site commissioning

#### Support Partners

- Heat pump certification
- Designer sign-off certification
- SEAI Grant Support
- Remote Diagnostic support

\* We also supply underfloor heating solutions. Visit us at [waterfordstanley.com](http://waterfordstanley.com) or send your plans to [sales@waterfordstanley.com](mailto:sales@waterfordstanley.com) or and we will revert with product specifications.
